Profile

As an ambitious undergraduate pursuing a degree in cybersecurity, I am passionate about safeguarding digital landscapes. My foundational knowledge spans diverse areas, including programming, web application security, OSINT, network defense, Threat hunting, and digital forensics.

Driven by curiosity, I thrive on dissecting security vulnerabilities and uncovering digital footprints. My academic journey has fueled my technical expertise, and I eagerly embrace the dynamic challenges of the field. Resilient, focused, and committed to continuous growth, I am poised to contribute effectively to real-world cybersecurity endeavors.

Professional Experience

Cyber Security Intern,

TISS (Trillium Information Security Systems) ✉

05/2024 – 09/2024

Node JS Backend Development Intern,,

Internee.pk

09/2023 – 11/2023 | Remote, Pakistan

Skills

Tools

Linux, Burpsuite, Docker, OWASP Zap, Wireshark, Splunk, ELK stack, volatility, Express JS and MongoDB.

Programing

Proficient in: C++, Javascript and Python

Familiar with: C, Bash, PHP and Assembly (msam).

Projects

Disk Tracer, Forensics analysis tool

DiskTracer is designed to provide thorough scanning of disk images so that security personnel can evaluate trends and changes in the system. This tool allows you to compare a suspicious disk image with the state of the system at the time of infection by a virus or other threats.

Gmail Phishing Application

An educational endeavor aimed at understanding phishing techniques and raising awareness about email security by impersonating Google emails and login pages.

Education

BS (Hons) in Cyber Security,

Air University Islamabad

2021 – 2025 | Islamabad, Pakistan

Courses

Google IT Support

Backend Development and APIs, Freecodecamp

Practical Web Application Security and Testing, TCM Security

Practical Ethical Hacking, TCM Security

Languages

Urdu

English — IELTS

Punjabi
